IF YOU ARE EXPOSED TO SAP:

- Wash the affected area thoroughly with soap and COLD water as soon as possible
- Keep exposed area away from sunlight for 48 hours
- If a reaction occurs, topical steroids applied early can reduce the severity of the reaction and ease discomfort
- If sap goes in eyes, rinse them with water and wear sunglasses
- If a reaction has occurred, the area of skin may be sensitive to sunlight for a few years and you may want to apply sun block or keep the affected area covered from the sun when possible
- See a physician if you have a reaction or any questions.
